Subject: more ELC

In the application overview they are asking us to describe how our ELC funded activities work together with resources from the PHEP (emergency preparedness) grant with a special emphasis on those activities that are ELC/PHEP dual supported. So I will need you to think about the activities supported in the ELC grant and if EP resources are involved in any way.

I suspect that Emergency Preparedness is being expected to carry some of the load and ELC wants proof that it is happening.
